## Education

### Graphic Era Hill University

Bachelor of Technology - Computer Science (Present CGPA: 7.72)

08/2022 – Present

Dehradun, Uttarakhand

### Angels Academy Sr. Sec. School

Class XII, C.B.S.E (Percentage: 78%)

2022

Haridwar, Uttarakhand

### Angels Academy Sr. Sec. School

Class X, C.B.S.E (Percentage: 91%)

2020

Haridwar, Uttarakhand

## Projects

### Spam Mail Detection | Python, Scikit-learn, Pandas, Tkinter, TF-IDF

05/2024 – 06/2024

- Built a spam classification model using Logistic Regression, trained on a Kaggle dataset of 6000+ labeled emails.
- Achieved 98.2% testing accuracy and 99% training accuracy by applying TF-IDF vectorization and effective text preprocessing.
- Implemented a real-time desktop GUI using Tkinter, allowing users to input email text and receive instant classification results.

### News Website | HTML, CSS, JavaScript, News API

02/2024 – 03/2024

- Developed a fully responsive news web application with real-time data fetched from a third-party News API.
- Implemented keyword search and category-based filtering to personalize news delivery, improving content relevance by 80%.
- Used asynchronous JavaScript (Fetch API) for smooth dynamic content loading without page reloads.

### Library Management System | C++, Object-Oriented Programming, File Handling

08/2023 – 09/2023

- Built a UI-based Library Management System using C++ applying core OOP concepts like classes, inheritance, and encapsulation.
- Implemented functionalities such as book issue/return, search, add/remove books, and user management.
- Designed a file-based storage system to simulate a database for storing book and member records.

## Technical Skills

**Languages:** C / C++ (proficient), HTML / CSS, Java, Python, JavaScript

**Libraries:** Pandas, NumPy, Matplotlib, Seaborn, Sklearn, Streamlit, Keras

**Tools and Frameworks:** MySQL (Intermediate), ReactJS, Git/GitHub, VS Code

**Domain Knowledge:** Data Structures and Algorithm, OOP, Operating System, DBMS, Computer Networks

## Certifications

### AWS Certified Cloud Practitioner

March 2025

#### Cloud Computing

[Link](#)

- Earned official certification from AWS, validating foundational knowledge of cloud computing principles.
- Demonstrated understanding of AWS global infrastructure, including key services like EC2 (compute) and S3 (storage).
- Gained insight into AWS pricing models and best practices for secure, scalable cloud architecture.

### Google AI Essentials (Coursera)

May 2024

#### Artificial Intelligence / Machine Learning

[Link](#)

- Completed a 10-hour course by Google introducing foundational AI concepts and practical real-world applications.
- Explored 15+ AI-powered tools and use cases across productivity, business, and everyday tools.
- Learned ethical and responsible AI practices and how to apply AI effectively without programming experience.
